YI-YU (BRUCE) LIU.

Business Analyst

ABOUT ME

Senior Business & Data Analyst | BI & Automation | Python, SQL, Power BI | AI-Augmented Analytics

I saved 2 major clients by outperforming their business analysis deadlines.

Experienced in analysing complex workflows, defining clear requirements, and producing precise specifications for multi-system environments. I focus on uncovering process gaps, mapping end-to-end logic, and aligning stakeholders and technical teams through strong modelling and documentation.
